

Custom Package Systems

Design Controls custom fabrication capabilities include (but are not limited to):

- Pumps Stands
- Tank Stands
- Distribution Manifolds
- Dilution Troughs

Our use of corrosion resistant materials such as Vinyl Esther fiberglass and schedule 80 CPVC plate make for rugged yet attractive equipment packages that last. Welded PVC & CPVC allow for durable systems which we can customize to meet your application needs. So if you are tired of rusty and worn equipment, contact us!
